REASONS WHY THE
AMERICAN WATCH,
Made at Waltham, Mass.
IS THE BEST.

It is made on the best principle. Its frame is composed of SOLID PLATES. NO jar can interfere with he harmony of its working and no sudden shock can damage its machinery, (itself famous for its novelty, as well as for its effectiveness) and is therefore properly made. The watch is what all mechanism should be—ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces screwed and riveted together, and require constant repairs to keep them in any kind of order. All persons who have carried "ancres," "lepines" and "English Patent Levers," are perfectly well aware of the truth of this statement.

At the beginning of our enterprise, more than ten years ago, it was our first object to make a thoroughly good low-priced watch for the million, to take the place of those foreign impositions—the refuse of foreign factories—which were entirely unsuitable at home and perfectly worthless everywhere.

How well we have accomplished this may be understood from the fact, that after so many years of public trial, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequalled by anything made in the world. For this purpose we have the amplest facilities. We have erected an addition to our main buildings expressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed, which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used and we challenge comparison between the grade of our work and the finest imported chronometers. We do not pretend to sell our watches for *less money* than foreign watches, but we do assert without fear of contradiction, for the *same money* our product is incomparably superior. All our watches, of whatever grade, are fully warranted, and this warrantee is good at all times against us or our agents in all parts of the world.

Where a secret infirmity exists involving the happiness of a life and that of others, reason and morality dictate the necessity of its removal, for it is a fact that premature decline of the vigor of manhood, matrimonial unhappiness, compulsory single life, etc., have their sources in causes, the germ of which is planted in early life, and the bitter fruit tasted long afterward patients laboring under this complaint, will complain of one or more of the following symptoms: Nocturna Emissions, Pains in the Back and Head, Weakness of Memory and Sight, Discharge from the Urethra on going to stool or making water, the Intellectual Faculties are Weakened, Loss of Memory ensues, Ideas are clouded and there is a disinclination to attend to business, or even to reading, writing or the society of friends, etc. The patient will probably complain of Dizziness, Vertigo, and that Sight and Hearing are Weakened and sleep disturbed by dreams, melancholy, sighing, palpitations, faintings, coughs and slow fever; while some have external rheumatic pain, and numbness of the body. Some of the most common symptons are pimples in the face and aching in different parts of the body. Patients suffering from this disease, should apply immediately to Dr. PERRAULT, either in person or by letter as he will guarantee a cure of Seminal Emissions and Impotence in six to eight weeks.

Patients suffering from venereal diseases in any stage Gonorrhea, Gleet, Strictures, Bubo Ulcers, Cutaneous Eruptions, etc., will be treated successfully. All Syphilitic and Mercurial Taints entirely removed from the system.

A DOCTOR'S ADVENTURE.

"And now we'll have a cozy, comfortable evening together," said my wife. "And—But what's that, Irving?"

My wife started nervously as a sharp peal at the bell interrupted our brief interval of domestic quiet.

"Only the surgery-bell, my dear; somebody wanting me, I suppose."

And I went down stairs, secretly wondering to myself if, after all, there was such a very wide difference between a galley-slave and a country doctor!

The surgery-door stood wide open, but nobody was there; and through the blinding darkness without I could but just discern the black outline of a close carriage, and a man standing at the horse's head.

"Who's there?—what's wanting?" I asked, coming to the threshold, and instinctively buttoning up the overcoat I had hurriedly thrown on.

"You're wanted, Doctor," said the man, speaking indistinctly behind the muffling that surrounded his face.

"Yes; but what for? Who want's me?"

"I am not at liberty to tell."

I had already entered the carriage, but this suspicious answer inspired me with distrust. I made a step to descend, but I was too late; the vehicle was already in motion.

"It is quite unnecessary to alarm yourself, Doctor," said a quiet, measured voice at my side. "Believe me, you are quite safe; and I trust you will not feel any uneasiness when I tell you that you must be blindfolded."

And at the same instant a folded bandage was deftly slipped over my eyes.

"Hold!" I ejaculated. "It strikes me that this is rather superfluous. The night is dark as Erebus, and you have no lamp."

"Possibly," returned the dry voice; "but it is best to run no risks."

And then ensued a silence of some ten or fifteen minutes, while the carriage rolled swiftly along, and the low measured breathing of my unknown companion kept time to my own uncomfortable thoughts.

At length my companion spoke, again in the same soft, modulated tones.

"Doctor! One more little precaution is necessary: your promise never to divulge to human soul a word of this night's visit."

I hesitated.

"I cannot bind myself by any such covenant. The relations between physician and patient are of course confidential;—but—

The carriage paused abruptly here, and the door was swung open. At the same instant something cold touched my temples—it was the muzzle of a pistol. I recoiled in horror.

"You surely would not murder me?"

"Your promise, Doctor!"

"I promise!" I gasped, recoiling once more from the chilling touch of the cold steel at my temples.

"Very well. Come!"

I was led up a narrow walk, through a doorway, into a room, where the bandage was removed suddenly from my eyes.

The spot was very familiar to me—a ruinous cottage, long since abandoned to decay, in the very heart of dense, swampy woods. How the carriage had ever reached it, I was at a loss to know. Upon a pile of straw, hurriedly thrown into the corner of the moldering floor, lay a prostrate figure, moaning at every breath. His face was concealed by a handkerchief, and the blood was slowly dripping from a gun-shot wound just above the ankle—a wound that had been clumsily bandaged by some unskillful hand. Moreover, there was a dark red stain upon the straw where his head lay, and his light-brown hair was matted with coagulated drops. Two or three men stood around, with rude masks of black cloth drawn over their faces, in which three slits were cut for the eyes and mouth; and a female figure knelt beside the heap of straw, veiled closely.

The men silently made way for me as I advanced into the apartment, and held their lanterns so that the lurid light should fall full upon my strange patient, as silently I stooped, and examined both wounds.

"Well?" asked my carriage-companion.

"I can do nothing. The man must die."

"Nonsense! A mere bullet through the leg—what does that amount to?" hurriedly gasped the man.

"In itself not much; but that blow upon the skull must prove fatal."

A low, half-surpressed cry broke from the woman opposite; she tore the veil from her face, as if she could not breathe through its heavy folds, revealing features as white and beautiful in their marble agony as so much sculptured stone. She did not seem more than thirty, but I afterward knew that she was indeed ten years older. But in spite of her present anguish, how grandly beautiful she was! Large dark eyes—hair like coiled gold, catching strange gleams from the shifting lanterns—and a broad, smooth brow—it was a face you see but once in a whole lifetime.

And yet, in the midst of her distress, she never spoke.

"At least you can do something for him Doctor," said my interlocutor, impatiently. "Don't let us waste time here.

As I proceeded in my ministrations, the moaning grew fainter and fainter, the convulsive movements became scarcely perceptible. A faint gleam of hope lighted up the face of the woman who knelt with clasped hands opposite; she looked appealingly at me.

"He is better—he is surely better?"

"He will be better soon," I answered, moved to pity in spite of myself. "He cannot live half an hour longer."

The horror of that sepulchral silence that fell upon us as my accents died away—shall I ever forget it? And five minutes afterward the breathing, spasmodic and painful to hear, died into eternal stillness.

The woman lifted the corner of the handkerchief, and gazed into the ghastly face. It was that of a young man of about two-and-twenty, and who had evidently been marvelously good-looking.

"O, heavens! he is dead!"

Her clear, agonized voice was ringing in my ears, as they led me back into the darkness of the night. I felt a bank note pressed into my hand as I entered the carriage once more.

"Doctor, you have done your best; it is not your fault that your efforts have not been more successful. Remember, you are pledged to secrecy!"

The next moment I was whirling swiftly through the November-midnight, with the strange, unquiet feeling of one wakened suddenly from a startling dream. Yet it was no dream—, las! it was a startling reality!

The carriage stopped at a cross-road near the village.

"Please to alight here, sir," said the driver. "You are not far from home."

I obeyed, and stood listening in the middle of the road, while the noise of the carriage wheels died away, losing its distinctness in the shriek of the restless winds. And the clock in the village church tolled out the hour of one.

Late as it was, however, my surgery was still open and lighted up; the servant from Haddenleigh Hall had just ridden up to the door.

"If you please, Doctor, you are wanted immediately at the hall. The Colonel said you were to ride my horse, if yours was not already saddled, and I can walk, so there will be no time lost."

I mechanically mounted the noble animal that stood waiting for me and rode off, rather glad of an opportunity to revolve in my mind the singular adventure that had that evening befallen me.

Haddenleigh stood a little back from the road, on a magnificent knoll crowded with century-old chestnuts and beeches; and ere I reached the broad stone steps in about half an hour, by dint of rapid riding.

As I entered the vestibule, Colonel Hadden, who had been pacing up and down the hall in a perfect agony of impatience, came to meet me.

"Is that you, Dr. Meller? I thought you never would come. We're in a pretty state of confusion here. Burglars in the house—my wife's set of diamonds gone—nobody knows what else—but old Hopkins left his sign manual on one of the fellows. They must be caught; they can't escape far. For you see—"

"Yes, but Colonel Hadden—"

"O, ay—I understand; you want to see your patient? It's Hopkins, the butler; he got an ugly blow on the left arm; and afterward my wife went herself for Doctor Maynard; no offense, Meller, but he lives nearer than you; but he was out. She has only just returned. I couldn't very well leave Hopkins; and Mrs. Hadden is such a kind, good soul, she insisted on going herself to fetch Maynard—"

"But, my dear sir—"

"Ah, true! Come along to Hopkins' room."

Hopkins, the butler, was as voluble as his master, and ten times as circumstantial; and by the time I had set his broken forearm, I was pretty well in possession of all the particulars of the attempted burglary at Haddenleigh.

And thinking of my midnight-patient, whose life had ebbed out upon the pile of straw, I felt a strange guiltiness as I listened to Colonel Hadden's eager conjectures as to the whereabouts of the desperadoes who had fled.

"And now, Doctor, you'll take a glass of wine," said the hospitable old gentleman, ushering me into his library.

It was brilliantly lighted, and warm with the crimson glow of a genial fire, before which, in a singularly graceful attitude, sat a lady, wrapped in the gorgeous folds of an Indian shawl.

"My wife, Doctor. Isabel, my love, this is Doctor Meller."

We stood before one another in silence; I could not speak, for I knew that I was looking into the startled, agonized eyes of the woman who had knelt scarcely an hour ago by the dying couch in the desolate cottage—Colonel Hadden's new wife, of whose beauty I had heard so much.

The Colonel talked on, but I heard not a word of what he said. I could not but marvel at the wonderful self-possession of the woman, who smiled and looked grave, and said "Yes," and "No," just in the right places.

"To be sure," the Colonel was saying, as I awoke into a sort of consciousness of his voice, "the loss of Isabel's diamonds is something serious, but of course we shall recover them again. Only, my love, it was rather careless of you to leave them on the drawing-room table."

"It was careless," replied Mrs. Hadden, calmly. "Doctor, you are not going, Colonel, you have forgotten that curious old book you were wishing to show Dr. Meller."

"I had entirely forgotten it," ejaculated the Colonel.

"I'll get it in half a minute, and you can take it home with you, Meller."

As the door closed behind the honest old gentleman, Mrs. Hadden glided up to me and placed her cold hand on mine—it was like the touch of an icicle.

"Doctor, you have my secret—you surely will not betray it?"

"I am pledged to silence, madam," I returned coldly; "but this deceit—"

"It is my fault, Doctor," wailed the woman, "it is my fate. How I endure it I scarcely know; were I to pause and think, I should go mad. The man who died to-night was my son! Colonel Hadden knows nothing of my first marriage, nor of this dreadful secret of my son's criminal life, that has weighed me down for years. Over and over again I have thought to escape from it, but it has followed on my footsteps like a doom. To-night closes that chapter of my life—O, Heaven! how dreadfully! But my secret is safe—the diamonds provided for that."

"But your husband, Mrs. Hadden!"

She covered her pallid, beautiful face with her hands.

"I know what you would say, Dr. Meller. I love him and honor him beyond all men; but what can I do? Believe me, I have never willingly wronged or deceived him. I never dreamed of—of—"

She paused abruptly. Colonel Hadden was entering the room, and the smiling casual remark she addressed to him filled my heart with amazement—almost admiration.

I rode home to my blue-eyed Eleanor, feeling, as I entered the snug sitting-room, as if I were returning to the homely, happy atmosphere of every day life. But I never forget the terrible excitement, the feverish suspense of that November night.

The desperadoes who attempted to rifle Haddenleigh Hall were never detected or taken; all trace of them seemed to have vanished utterly out of the earth.

And were it not for the bank-note which had most liberally recompensed my services, and the everlasting witness borne by Mrs. Hadden's lovely, startled face, I should almost have been tempted to fancy that all the events of that marvelous November midnight were the fragments of a dream.

This was my adventure—the first and last that ever crossed the pathway of my life.

NEW RULE IN BILLIARD PLAYING.—The last number of the *Billiard Cue* contains an announcement from Mr. Phelan of an important change in the by-laws of the game of billiards. Heretofore when the cue-ball was in contact with another or "frozen," the player must strike another ball before the one with which he was in contact, in order to count. Mr. Phelan announces that after the first of January, a player, if his ball be frozen, can count, provided he plays away from the ball with which he is in contact, although on the return of the cue-ball from the cushion or *masse* it touches that to which it was frozen first. The rule seems fair, and will occasionally lengthen a run.

THE GERMAN.—The Baltimore *Commercial* very truthfully remarks that there is around the earth a girdle of German influence and German culture. Into whatever country or clime the Germans go, they carry with them the habits, pastimes and traditions of Fatherland, to which they cling with unyielding tenacity. Everywhere they are welcomed, and everywhere they impress much of their national character upon the people with whom they take up their abode. In this country they largely influence our political as well as our social life. Generally industrious, law-abiding and intelligent, they are valuable accessions to any land.

"I DON'T believe it's any use, this vaccination," said a wiseacre. "I had a child vaccinated, and he fell out of a winder a week after, and got killed."

NOT "ARM-AND-ARM," BUT HAND AND HEART.

James E. Murdoch, the tragedian—and soldier as well as actor—well and favorably known in this State, made a speech at the Pittsburg Soldiers' and Sailors' Convention, from which we make the following extract:

"While disappointed statesmen and political tools, led by a man deaf to the promptings of faith and national justice, combine with impoverished and desperate agents of the rebel cause to overthrow the Government, every true man should hold himself a minute-man for the country's call. How can a people, willing to be directed by the pillow and cloud of a righteous Providence, fail to see a new duty in the shaping of public affairs? The soldiers on the battle-field, the sailor on his deck, the people at their homes, have fought the rebel cause, and the universal verdict is, 'Guilty, and recommended to mercy.' I hear cheers. We say: 'Conform to the circumstance of your defeat! Give us, by your choice of representatives, some guaranty of your disposition to keep the peace in future, and we will regard you no longer as enemies, but as friends restored, and received into the national family. We do not care to walk arm in arm with you in reconstruction. Go hand and heart with us, or not at all. [Cheers.] Politeness and ceremony may suit you—we want truthful fellowship in our political alliance, if we fail to secure it in social life.' [Renewed applause.]

In short, if Southern rebels and Northern sympathizers will not accept the proffers of peace made by the legitimate majority, against whom the one made open and the other secret and more despicable warfare; if terms conceived in a spirit of justice and tendered in good faith are not acceptable; if factious resistance to the Acts of Congress is still persisted in, then must the loyal States assert their rights once more, fling their banner to the breeze, and, rallying to the citadel, stand ready to repel the foe in whatever form he may come, however he may be supported. [Cheers.]

May God, in his infinite mercy, avert from this people the horrors of a renewed war; but forewarned is forearmed." [Applause.] "Our country's flag has been set as a signal of hope to the world, promising freedom, equality and equal justice to the oppressed who seek the protection of its sheltering folds. Those to whom it is a promise only must be conformed to their love and confidence. For the perfected result I must labor in the spirit of the men of '76, the men of '61 and, 1st, and of the brave boys in blue who have made the last and greatest sacrifice, during the war of the rebellion.—To this common cause of freedom and humanity let us pledge our lives, our fortunes and our sacred honors." [Great applause.]

SANDWICHED.—The people of the great West have a homely and forcible style of illustration. An example of this is recorded by the Toledo (Ohio) *Blade*, in a conversation which occured between one of Andrew Johnson's "satraps and dependents" and a Michigan Colonel. The Johnsonian suggested that as a soldier the Michigan Colonel ought to turn out and pay his respects to President Johnson on his arrival at Toledo. To which the Colonel replied:

"You may, but I will not, for I have no respect for him."

"But," quoth the Johnsonian, "you will go with us and show your respect for Grant and Farragut, who accompany him, won't you?"

"My dear sir," replied the Colonel, "there was once an old lady who kept a boarding house for laborers. One morning she came across a piece of tainted beef, which she purchased cheap and boiled for dinner. It smelt to heaven and not a boarder would touch it. That evening she stewed and fried it but it wouldn't do—it still smelt. The next morning she made hash of it, but it smelt louder and louder, when a boarder, who could stand it no longer, spoke his mind. 'Look here, old lady, you may bile it, you may fry it, or you may make good pork of it by mashin' it with 'taters, but that meat stinks, and you can't crowd it down me in any shape.' Now," continued the very positive Colonel, "you may take Johnson boiled, fried, stewed, or sandwiched between two wooden potatoes as Grant and Farragut, and he stinks. You can't crowd him down me at any price."

JOSH BILLINGS ON MUSKETOZE.—Josh Billings' has awaked one morning in a reflective mood, after a night of interesting combat with a horde of blood-thirsty musquitoes, whose assaults have given his intellectual physiognomy the aspect of that of a small-pox patient, thus moralizes: "We are told that there want anything made in vain. This is sumwat, but I have thought the time spent in manufakering musketoze wuz. How they were put together I never could tell, and there is one commershal peculiarity about the muskeetur trade, and that is the supply always exceeds the demand, and yet the product is not diminished. I kant understand this no how. They are born of poor but industrious parents, and brot up with great care under the auspices of some ov our best families. They have also consumate courage. I have known a single muskeeter to fight a man and his wife all nite long, and draw the last blood. It is very easy to kill muskeetoze when you kan. But in striking them you are very apt to hit the exact place where they recently wuz. They are eternal little cusses, tuning as they toil."

KIND JUDGE.—A Texas Judge considers a sentence for murder as follows—"The fact is, Jones, the Court did not intend you to be executed before next Spring, but the weather is very cold, and the jail, unfortunately, is in a very bad condition; much of the glass in the windows is broken, the chimneys are in such a dilapidated state that no fire can be made to render your apartments comfortable; besides, owing to the great number of prisoners, no more than one blanket can be allowed each, to sleep sound and comfortable, therefore, is out of the question. In consideration of these circumstances, and wishing to lessen your sufferings as much as possible, the Court, in the exercise of its humane compassion, hereby orders you to be hung to-morrow morning as soon after breakfast as may be convenient to the sheriff and agreeable to you."

THE uninitiated often wonder what the letters at the end of advertisements in newspapers signify, but we never remember to have met with such an amusing instance of misapprehension as related by a disciple of Esculapius:

"A short time since I issued a series of advertisements in some of the Western papers; they were all very similar in style, and all concluded with my name thus: Dr. J. W. Curland, and the marks of the newspapers after—cod&w3m—which signified to the boys in Exeter that my advertisement was to go in every other day and weekly for three months. Conceive my astonishment upon receiving, shortly after, a letter from a Western correspondent, addressed to

Dr. J. W. CURLAND, E. O. D. & W. 3 M."

"A gentleman had taken the advertising mark for my degrees as a Doctor of Medicine, etc.

Rain beats asleep, when rain falls, does it ever get up again? Of course it does—in due time.

TELEGRAPHIC SUMMARY.

The condition of the Continental telegraph has been quite unsatisfactory during the past week, sometimes it did, and sometimes it didn't; its news supply was fitful, spasmodic, uncertain. We glean the following items:

Advices from the city of Mexico, received at New York Oct. 17th, say that Maximilian has taken the field in person, and as soon as ready, will open the campaign. His army numbers 40,000 native Mexican, splendidly officered and equipped.

Sonora was evacuated by the French Sept. 14th, and E. Conner, U. S. Consul at Guaymas had, with the consent of the French, notified Pesquiera to take possession.

The Times' Washington dispatch insists that Secretary Stanton has tendered his resignation, and signified a desire for the Spanish mission. It is intimated that Gen. Sherman is to be tendered Stanton's Secretaryship.

John Van Buren is dead, and was buried in New York on the 17th inst.

The North Carolina election resulted in the selection of Governor Worth by a small vote, almost without opposition.

There is a sharp crisis in Maryland politics, owing to the determination of Gov. Swan to remove the Radical Police Commissioners who have charge of the registry. At last advices it seemed to be conceded that the question between the Governor and Commissioners was of a legal nature only to be decided by the courts.

M. Thouvenel, the eminent French statesman, died at Paris on the 19th instant.

The official returns of the Ohio election show 43,310 Union majority. In Pennsylvania the total vote was nearly 600,000. Geary's majority, 17,000.

The Vermont legislature elected Justin S. Morrill, Senator for the full term; Luke P. Poland for the vacancy until next March, and G. W. Edmonds for the unexpired term of the late Senator Foot.

Gold in York at last advices was 147½.

TEMPERANCE DEMONSTRATION AT COLFAX.

Pursuant to notice, a large concourse of Good Templars, and other citizens whose sympathies are enlisted in the Temperance cause, congregated at Colfax, on Tuesday, the 23d inst. Hawkins Lodge, No. 226, (of Dutch Flat,) Olive Lodge, No. 118, (of Gold Run) and Haswell Lodge, No. 196, (of Colfax) were well represented, while the W. C. T. and W. Sec. were the only representatives of Golden Rule Lodge, No. 56, of Iowa Hill.

At 1 o'clock, P. M. a fine audience gathered at Pacific Hall, when Joseph Edwards, W. C. T. of Hawkins Lodge, was called to the Chair, and introduced Hon. C. S. Haswell, G. W. C. T., who addressed the audience in his usual happy and impressive manner. Dr. Haswell's remarks were exceedingly felicitous and well timed, strengthening the previous determination of those present and awakening an impulse to renewed and more vigorous exertions in their warfare against intemperance. If there were any present who had been weak, vacillating or timid, the remarks of the G. W. C. T. could not have failed to fortify and encourage them, while the strong and confident were encouraged and had their faith renewed. The hearts of all were warmed to a livelier glow and beat in happy unison to his soul-stirring appeals. At the close of his address he presented a splendid Bible to Haswell Lodge (named in honor of himself) the presentation speech being couched in most pathetic and impressive language. W. C. T. Harrison responded briefly and appropriately in behalf of Haswell Lodge.

Rev. Geo. B. Taylor followed in a brilliant address, consuming nearly an hour.

After the above exercises at the Hall a procession was formed and marched through town led by a good band, Chris. Queen, of Colfax, acting as Marshal, assisted by Isaac T. Coffin, of Dutch Flat.

In the evening Rev. Geo. B. Taylor again addressed a large audience with marked ability, after which a grand Good Templar's Ball engaged the attention of the more youthful participants in the demonstration. The ball was a grand success and was prolonged to "the wee sma' hours ayont the twal."

"ARE YOUR TEETH SOUND?"—Doctor M. W. Wilson has returned from Cicco and taken rooms in the old National Hotel building, where he is prepared to perform dental and surgical operations to the entire satisfaction of the most fastidious. The Dr. was always a popular institution in our town, and those who have ever examined any of his work require no assurance from us that for fillings or piece-work he knuckles to nothing living—when it comes to drawing, he can discount a "Jew David," or porous plaster. Before the wet weather commences, and sets the nerves of decayed teeth to jumping, it would be well to give the Doctor a call and have them "et tu" guts. Charges moderate.

KEEP IT BEFORE THE PEOPLE.—A penny saved is just as good as a penny earned any day. Style and "grand flourish" are perhaps good things in their way and proper place, but a poor man can't afford to pay an addition of more than fifteen or twenty per cent. to the price of family necessaries for style and flourish. Henry Runckle keeps a very modest little store on Main street, he don't attempt to put on much style nor make much flourish, but he keeps a fine assortment of good goods and can afford to sell them just as much lower than his more showy neighbors, as they add for style and flourish. If you want to buy your groceries and provisions so as to save a few odd pennies, and apply the same to maintaining a style and flourish as your neighbors, give Runckle a call. He will risk the consequences.

EDUCATION AND PUGNACITY.—A few days ago, two of the citizens of Sawyer's Bar, while discussing School matters, became so excited that they had recourse, to settle the dispute, to the manly art of self-defence—a bit of a discussion with fist and boot, which resulted in the fracture of several of the ribs of one of the parties.—*Nevada News.*

Do they need a Teacher at Sawyer's Bar? If so, we rather opine that we could suggest a Dogberian affinity, resident not a thousand miles from the classic precincts of Dutch Flat.

SAVING MORE GOLD.—The Pacific Ore Company, near Grass Valley, dissipburine rock by steam, and it is said they get twenty-eight dollars a ton, where the old way got only nine dollars.

MURDER.—Judge McFarland, of Nevada, yesterday sentenced Robert E. Doyle to be hanged on the 8th of November.

GOOD TEMPLARS—Remember your degree meeting to-night.

PEACE OR WAR?

It is not by any means seldom that we observe in the Conservative-Republican, Copperhead or Rebel press insinuations, intimations or open threats of a renewal of the conflict which so recently drenched our land with fratricidal blood. From "Brick" Pomeroy (the truest press-representative of Andy Johnson extant) down through all the shades and grades, threats and warnings similar to those of '60 are the staple of editorial matter. Frequent repetition seems to have impressed these writers with an actual belief in their assertions. Now, from a careful study of this bluster, upon what contingency is the alternative of peace or war apparently made to hinge? In no single instance have we met with a declaration or even an insinuation that the loyal masses were likely to appeal from the fairly expressed will of the people to the arbitrament of arms. No Copperhead, rebel or fusion press has had the hardihood to hint that Union men would resist, if the ballot conflict should result in the success of their opponents. No, if the people will that the halls of Congress shall be turned into a bear-garden and unrepentant rebels be permitted to spit their venom and air their devotion to the "lost cause" within the purlieus of the Capitol, the people are sovereign and we have solemnly determined to submit to their behest. Is a like or at all similar spirit manifested on the other side of the house? By no means. The only inference deducible from "conservative" editorials is, that the people must accept their construction of Constitutional law, adopt their ideas of policy and vote for their candidates for office or bloodshed will be inevitable. It is a palpable subterfuge to assert that any other reasons can be assigned for precipitating or any other conditions suggested to avert the bayonet practice which these rampant rascals threaten. The only acts which they contemplate and stigmatize as oppressive enough to justify belligerent opposition cannot be perpetrated except by virtue of a policy previously submitted to and endorsed by the people.

Divested of all sophistry, the demands of blustering Andy and blood-thirsty "Brick," his lieutenant, could only be satisfied by the repeal of the "iron-clad oath" and the admission to seats in Congress of men who could not truthfully take that oath. Herein is the finality of their policy. We might accept their theories and constructions, vote for their Morrisseys, Brookses and Ben. Woods and debase ourselves generally, but to the repeal of the odious test oath we would be compelled to come, after all, or not a spoonful less blood would have to effuse.

No Northern representative can take a seat in Congress without taking this oath, whether he be Copperhead or Union—no Southern man can be elected who can conscientiously subscribe to it. The gist of the President's policy and position consists in a demand that the Southern representatives be unconditionally admitted—without them Congress is but a "rump" and "an unconstitutional body hanging on the verge of the Government." Of course, in view of these facts, the oath law must be repealed or these ex-rebels cannot be admitted—they must be admitted or Congress must remain a "rump" and continue to "hang on the verge."

The act requiring the test oath was founded on the theory that treason was a great crime, incapacitating those who had been guilty of it from participation in the control of the Government. To repeal that act will imply hostility to the principle which prompted its passage—*i. e.*, repeal will be equivalent to a declaration that treason is not criminal. There is no use of mincing matters or shutting our eyes to palpable facts, we are fully persuaded that, if Andrew Johnson, Brick Pomeroy and men of their ilk were allowed full swing, "to this complexion we must come at last," must publicly and solemnly declare treason no crime or fight. "Forewarned is to be forearmed." Let us burnish our weapons of defense!

In the city of H—— there resided a worthy deacon, blessed, of course, with a tall, gaunt figure, and hands of enormous dimensions. He was strictly pious, never failing to ask a blessing, not only when his own family dined, but also at the servant's meals. On one occasion he employed a male servant, who was entirely ignorant of the deacon's religious propensities. He made his appearance shortly before the dining hour, and when the bell sounded the servant started for the table, and without ceremony commenced devouring the good things. The deacon was horrified, and extended his hand, saying, "Pause, young man, pause!" The young man raised his eyes significantly to the deacon's upraised hand, and replied: "Yes, and pretty good sized paws, too, I should say!"

The above "reminds us" of a similar story, which, though old, will richly justify repetition. A youth whose parents held religious ceremonies "more honored in the breach than the observance," was on a visit at the house of a staid and sanctimonious deacon. On seating himself for the first meal at the deacon's, he, as had been his custom at home, immediately flipped his plate over and prepared for action. "Stop! stop, stop!" mildly remarked the deacon, "it is our custom to 'say grace' before eating, at this house." "Pitch in," said Young Hopeful, "say what you please, you can't turn my stomach."

TO LITIGANTS.—As a general rule, our impulses prompt us to advise those about to engage in lawsuits to try every legitimate means to effect a compromise or amicable arrangement, even at the sacrifice of a modicum of just dues, rather than engage in litigation. But as nobody has asked our advice, and as one is seldom thanked for the article when gratuitously proffered, and furthermore, as human nature is proverbially perverse, and Yankee nature is prone to indulge in legal luxuries, we make bold to suggest that in procuring aid of counsel it is always cheapest to obtain the very best. Those of our readers who are disposed to act on this suggestion would do well, before becoming involved in the meshes of the law, to consult Messrs. Hale & Fellow of Auburn. There is not a more thorough, careful, prompt and efficient law firm in Placer or elsewhere.

ENLARGED AND IMPROVED.—The Folsom *Telegraph*, of the 20th inst., came to hand greatly enlarged and in a bran-new and exceedingly becoming dress. The improvement is decided and highly gratified our taste—it gladdened our eyes and warmed our heart to contemplate it, for the *Telegraph* has ever been a decided favorite, and one of the most welcome of the habitual visitors of our sanctum.

"LIKE MASTER, LIKE MAN."

The San Francisco *Call*, when in the mood for supporting "my policy" and slurring Congress and Radicalism, most appropriately and happily adopts the habits of its great leader and exhibits an utter recklessness in the use of language, figures and logic. In the *Call* of Friday, the 19th inst., the editor opens an attack on the present Revenue system of our Government with the following witheringly sarcastic reference to the law-making power:

"While our Congressmen, politicians and statesmen (!) are bothering their brains in order to solve the problem of How Not to Do It in the matter of reconstruction; while their energies are bent on carrying out visionary theories for elevating newly-made "freedmen" to the rank of rulers, or plundering the country and pocketing the spoils," etc., etc.

Without allowing the aforesaid law-making power even a brief period in which to "hide its diminished head," he rushes pell-mell into a discussion of the errors in our system of taxation with an air of complete mastery and easy indifference which would have convicted Adam Smith or Stewart Mill of egotism. He says:

"The lower and middling classes, especially, are being actually crushed under the weight of their financial burdens," and "taxes are so levied as to fall heaviest on the classes least able to bear them."

As an illustration pertinent to these assertions, and "to illustrate how taxes are heaped upon taxes for articles of family necessity," he refers, selecting, of course, we presume, the aptest illustration in reach, the article of canned fruits. "For putting up these articles, the manufacturer is taxed (1); he is taxed on the amount he manufactures (2); he sells to a retail grocer who is taxed for the privilege of selling them (3), and who has to pay a tax on the amount of his sales (4); and finally, before the can or package can be taken away by the purchaser, it must be taxed again, and a stamp stuck upon it (5)." Assuming that the writer understood his business and had carefully studied before entering upon a question which had taxed the inferior abilities of a consider able number of law-makers, we presume that he selected the very subject of taxation which would most aptly and perfectly sustain his propositions.

Hence, among other things, we conclude that the "poorer and middle classes" are "especially" the consumers of canned fruits put up by manufacturers and sold and stamped by retail grocers. Hence, also, we infer that the consumers of canned fruits are the "classes least able to bear" taxation. For the relief of these hapless consumers we will state that the writer of the above extract either failed to examine the revenue law carefully or has indulged in Johnsonian recklessness—of assertion. The manufacturer (of canned fruits as well as other articles) pays a license, if his manufactures exceed in value six hundred dollars per annum; he pays a tax on gross receipts, if said receipts exceed one thousand dollars per annum; the grocer pays a license for his general business, *including* the sales of canned fruits, but would pay the same license if canned fruits were not included in his stock. The grocer *pays no tax* on amount of sales, unless the tax upon his income be so considered. The stamp on delivery for consumption, we must allow to *stick*.

By patronizing small operators the oppressed devotees of canned fruits can avoid the manufacturer's license and tax on sales and everything except the stamp. By canning their own fruit, as, by legitimately logical rules we are led to suppose the less oppressed wealthy classes do, they can even escape the stamp. After thus indicating five processes of taxation for canned fruits, the *Call* remarks: "Nearly every article of necessary consumption is subject to this septuagesimal taxation." Of course it would ill become us to intimate that a person of the accustomed philological accuracy which characterizes the editor of the *Call* should use so big a word as "septuagesimal" without comprehending its meaning. Of course he knew that it meant seventy-fold.

When, with the utmost stretching, he can enumerate but *five* processes of taxation, why does he characterize it as *seventy*-fold taxation? Simply because no other course is consistent with Johnsonism. In the same vein, and characterized by the same recklessness or perversity is an article on the "National Debt" in the same paper of Saturday, the 20th inst., wherein, after stating the national debt of Great Britain and of our country correctly, and correctly stating the English debt as $11 50 per annum *per capita*, he declares that ours "amounts to the enormous sum of $62 75 per annum for each one of the population." In proof that this was not an oversight or typographical error, the following sentence speaks of it as six hundred per cent more than the English *pro rata*. Unless his figures are Johnsonianly unreliable, our thirty million people, at $62 75 per annum each, will be able to wipe out the public debt in a little over eighteen months!

It is in the *Call* of Sunday, the 21st, however, that we find an argument most exactly after the style of the ex-Alderman and Accidental President. In the course of a supercilious demolition of the advocates of "Intelligent Suffrage," he says:

"If we make intelligence the basis, we must fix a standard, and allow men as many votes as they go degrees above the standard. Thus, if to know how to read and write is the standard for a vote, to know how to read, write, cypher and parse, should give two votes, a knowledge of Euclid another, of astronomy another, of Latin another, and so on *ad infinitum*."

Accepting the logic of this, our luminous cotemporary, by parity of reasoning if *color* were the test and a "dark brunette" were the standard for one vote, a light brunette would give two votes, a *blonde* several votes and an *albino* could vote *ad infinitum*. Or if, as at present, *age* was considered, and a man of 21 was allowed one vote, 42 would give two votes, 63 three votes and a Methusaleh could vote *ad infinitum*.

The above quotations we consider eminently characteristic of the Johnsonized press of the country—it is for that reason and none other that we have quoted them.

THE Princess Mary of Cambridge was weighed a few days before marriage, when it was found that she represented eighteen stone—250 pounds.—*Gold Hill News.*

Has not our cotemporary also seen a paragraph, stating that the gains of the Princess were such that, within a day or so after marriage, she represented 280 pounds? Who can account for the phenomenon?

OUR people are wild with enthusiasm. The town is illuminated, flags floating and cannon booming, over the glorious election news. In harmony with our brethren East, we say Congress shall be sustained and treason made odious, big I Johnson notwithstanding.—*Dutch Flat dispatch to Sac. Union.*

"A little judicious hanging would do those traitors good." They should have a taste of their own prescription. They openly proclaim "war against the government," and for such an offense hanging, in their opinion in times past, is only a light punishment—entirely inadequate to the enormity of the crime.—*Amador Dispatch.*

Because our people sustain a faithful Congress—the Constitutional law-making power of the land—instead of an apostate President—the Constitutional Executive *of the will of the law-making power!*—they are "traitors," forsooth, and openly proclaim "war against the Government." Because we indulge in a little innocent jollification over the success of the principles in which we believe "a little judicious hanging" would do us good, hey! Well, if "Old Sweetness" is conscientious in that opinion, and sufficiently earnest and chivalrous to be disposed to put his theory in practice, by way of an inducement for him to do so we will guarantee him a free ticket to our little burgh and the "freedom of the town" while here. If this offer is not sufficiently generous we will go further and engage to defray all the expenses incident to his decent burial. We would earnestly advise the young man, before throwing himself on our hospitality *in this connection*, to be especially careful to draw up and execute his last Will and Testament. It might not be incompatible with professional courtesy to also suggest the cultivation of an acquaintance with, and extension of patronage to those great public benefices,—the Accidental and Life Insurance Companies. Thank God! it is not at all safe or healthy for people of his kidney even to *chirp* treason in these parts.

JUMP OFF, BISHOP!—The Chico *Courant* is edited by A. W. Bishop, formerly of the Red Bluff *Independent*. After years of gallant and effective services in the ranks of the Union party, some aggravating local causes unseated Bishop's intellect and he was induced to throw his personal influence and that of the *Independent* in favor of a Copperhead-bolter alliance, and thence, the road to perdition widening and the grade becoming steeper as it descended, he very naturally changed stages for the rickety Andy Johnson Lightning Express for purgatory. The pleasant privilege of an intimate acquaintance with Mr. Bishop had impressed us with a conviction that his sane sympathies could not attach enduringly to Copperjohnsonism. Hence, we have watched with painful, though friendly interest for a soft spot on which the young man might alight, on jumping off the rotten concern. At last the coveted opportunity presents itself. Commenting on the rumored substitution of John Bigler for Mr. Avery in the Federal Assessorship, the *Courant* treats it as a *canard*, but closes with the following:

"If Andy Johnson seeks immediate damnation, let him undertake to reinstate the old political bummers on this coast, that the people have once buried out of their sight, and he will get about as much damning as generally falls to the lot of man previous to shuffling off this mortal coil."

The huge paunch of the obese appointee presents a beautifully springy landing place, with "ample room and verge enough" to receive the entire corpus of our cotemporary. Jump off, Bishop, and cleanse your stomach of Johnsonian impurities by a copious damning. We were sanguine that no man who had ever been capable of a correct thought or patriotic impulse could endure this Bologna-lager beer, bowellary infliction. Bishop's case converts our belief into a conviction.

NEWSPAPER CHANGES.—The *Dramatic Chronicle*, hitherto published at San Francisco for gratuitous distribution, is to be enlarged to the size of the *Call* and issued as a morning subscription paper. The *Chronicle* heretofore though small, has been egg-full of meat and carries a fine brain-capital into the new enterprise. We heartily wish it success.

The Grass Valley *Union* has changed hands, W. S. Byrne and Chas. H. Mitchell (the latter, one of the proprietors of the *Placer Herald*,) taking the place of B. F. Gwynn in the ownership of the *Union*. The new Proprietors announce it as their "chief object to give the people of Grass Valley a good local newspaper." In politics they say it is to be "independent in tone," which, according to common and fashionable *parlance*, we consider equivalent to saying that it is to be —— "*not Radical*."

A HIT AT RAYMOND.—The Missouri *Democrat* has this hit at the weathercock of the New York *Times*: "A milliner is after Raymond. In the New York *Herald*, of the 8th instant, a milliner advertises for "a first-class trimmer."

AN ENLIGHTENED ENGLISH OPINION.

To view and appreciate a landscape it is necessary that the beholder should occupy a position apart from the objects contemplated, and it is frequently the case that the view is the more comprehensive in due proportion to the remoteness of the stand-point from which it is behetd. The active participants on a battle-field are less qualified to describe its general aspects than a distant beholder. On the same principle, it often occurs that national affairs and political strife are more appreciatively and intelligently comprehended by foreigners at a distance than by those whose passions are liable to be excited, or whose judgments are warped by participation. As a model of dispassionate and intelligent criticism of the present aspect of our American conflict, we subjoin the following extract from the London *News* and commend it to the careful perusal of our readers:

"Congress, though asserting the unconstitutional character of Johnson's assumption of reconstructive power, agreed to admit all that had been done, and to carry on the work from the point to which Johnson had brought it. It proposed that an amendment to the Constitution should be made guaranteeing the civil rights of the negroes, the public debt and the legislation of the North, and redressing the inequality of representation which makes the Southern citizen weigh half as much again in the scale of the Constitution as a citizen of the North. Johnson's friends supported this, the South were known to be willing to accept it, and the only comment made upon it, even by those who were hostile to it, was, that it was a small result of so much labor. It was proposed that on the ratification of this amendment the Southern representatives should be admitted, and the Union, rendered safe by this simple redressal of a representative inequality should be restored at once. That proposal was the test of Johnson's statesmanship and the touchstone of his sincerity.—It contained nothing he had not himself advocated, and nothing which the North and South would not have agreed upon at once had Johnson joined with Congress in recommending it. But it was not needful that Congress should consult him in making the proposal, and it passed him over. Then it was that Johnson was found wanting. Had he put aside his personal pique, and thought only of his country, he would have taken the Congressional proposal as an olive branch, the South would have accepted it at his hands, the Northern States would have assembled their legislators in special session to ratify it, and by the time Congress adjourned, not only Tennessee, but all the Southern States, excepting Texas, might have been enjoying the privilege of representation in Congress. But Johnson failed his country. At the moment when he could have done the Union essential service he chose to serve himself. An ill-tempered message was fulminated against the proposal of Congress, and the word went forth that the Union was not to be restored if it could not be restored in Johnson's way. From that moment he threw himself in the arms of the South.—Everywhere the old Democracy, who would have closed the war by installing Davis in Lincoln's place, rallied around a new leader, and the fight for South ascendency was reopened on the field of Northern politics. The protests against radicalism are a blind—the ascription to Congress of the blame of delay is a pretense; the real object of the movement which the Philadelphia Convention has sanctioned is the restoration of the South without the guarantees the Congressional proposal provides. The choice is not between what Congress has talked and what the President has tried to do, but between what Congress has done and what Johnson has desired. The real issue is whether the Constitution shall be amended so as to give equal civil rights to the freedman and equal political representation to the North with the South, or whether the old Union shall be restored with Southern preponderance and no provision for the protection of the freedman in their rights. Congress represents the policy of caution, and the wise healing its proposals would bring; Johnson represents a policy of concession which would give back to the South nearly all that the sacrifices of the war have purchased from it.—Congress is for a lasting Union, founded on equal justice to both races and sections. Andrew Johnson is for leaving the negro to his fate and the North to its diminished share of Federal power. Congress would take precautions which are admitted to be wise and just before entering again into federal alliance with those who have misused their power.—Johnson would have no real precautions taken, but would re-marry the sections in a hurry, leaving the North to repent at leisure. We are not, therefore, at all surprised that our cotemporaries who supported the South all through the war are loud in their support of Johnson now; but the same desire for the welfare of the great people who have sprung from the loins of England which decided our sympathy for the Northern cause, and made us rejoice in the Northern victory, determines our best hopes and wishes to the side of Congress, which really represents all the best interests of human progress in the "reconstruction" strife which is raging now."

DIVORCE WANTED.—The Eastern papers are saying that Kate Chase, daughter of the Chief Justice, who was married last year to Senator Sprague of Rhode Island, either has or is about to apply for a divorce. We don't believe it.

AN amusing error in the columns of a leading paper in Paris has excited no small amount of merriment at the expense of a man of talent. The following paragraphs, intend to have been printed separately, were, by some blunder, so arranged that they read consecutively: "Dr. —— has been appointed Head Physician to the Hospital de la Charte. Orders have been issued by the authorities for the immediate extension of the Cemetery of Mount Parnasse; the works are being executed with the utmost dispatch."

ASTONISHED.—A day or two since, two ladies from the country, on a shopping excursion to the city, dropped into a hardware store where agricultural implements are sold. They had read John's advertisements, and therefore innocently enquired for *cradles*. The store keeper said it was rather late in the season for the article, and he had sold all he purchased. The ladies looked at each other wonderingly, and whispered laughingly, when one turning to the blushing John, remarked "*I tho't babies were always in season.*"

POOR FELLOW.—The husband of a woman who was killed by a locomotive, recently in Portland, Me., has sued the railroad company on the ground "that she was his only support."

THE *Dramatic Chronicle* says that tilting hoops are a Chinese invention, and were introduced by the Sze Yup Company.

QUEER THING is an insurance policy. If I can't sell it, I can-cel it, and if I can-cel it I can't sell it.

HOSTETTER'S
CELEBRATED
STOMACH BITTERS!
A PURE AND POWERFUL TONIC,
CORRECTIVE AND ALTERATIVE,
—of—
Wonderful Efficacy in Diseases of the STOMACH, LIVER AND BOWELS.

Cures Dyspepsia, Liver Complaint, Headache, General Debility, Nervousness, Depression of Spirits, Constipation, Colic, Intermittent Fever, Cramps, Spasms, and all Complaints of either Sex, whether arising from Bodily Weakness, whether inherent in the system, or produced by special causes.

NOTHING THAT IS NOT WHOLESOME, genial and restorative in its nature, enters into the composition of HOSTETTER'S STOMACH BITTERS. This popular preparation contains no mineral of any kind, no deadly botanical element; no fiery excitant; but it is a combination of the extracts of balsamic herbs and plants, with the mildest and purest of all diffusive stimulants.

As a General Tonic, HOSTETTER'S BITTERS produce effects which must be experienced or witnessed before they can be appreciated. In case of Constitutional Weakness, Premature Decay and Debility and Decrepitude arising from old age, it exercises an electric influence. In the convalescent stages of all diseases it operates as a delightful invigorant. When the powers of nature are relaxed it operates to reinforce and re-establish them.

The weak Stomach is rapidly invigorated and the appetite restored by this agreeable Tonic, and hence it works wonders in cases of DYSPEPSIA and in less confirmed forms of INDIGESTION. Acting as a gentle and painless apperient, as well as upon the liver, it also invariably relieves the Constipation superinduced by irregular action of the digestive secretive organs.

Persons of feeble habits, liable to Nervous Attacks, Lowness of Spirits and Fits of Langour, find prompt and permanent relief from the Bitters. The testimony on this point is most conclusive and from both sexes.

The agony of BILIOUS COLIC is immediately assuaged by a single dose of the stimulant, and by occasionally resorting to it, the return of the complaint may be prevented.

Last, though not least, it is the ONLY SAFE STIMULANT, being manufactured from sound and innocuous materials, and entirely free from the acid elements present more or less in all the ordinary tonics and stomachics of the day.

No family medicine has been so universally, and, it may be truly added, deservedly popular with the intelligent portion of the community, as HOSTETTER'S BITTERS.

CALIFORNIANS should test the merits of DR. HOSTETTER'S STOMACH BITTERS. While it is highly palatable as a beverage, it is unequaled as a tonic and invigorant. In the pursuit of fortune at the mines, many persons are exposed to the attacks of derangement of the digestive organs, and various kinds of fever. It is the very article that has so long been in demand in the mines. Its daily use will tone of a deranged stomach, impart fresh vitality to the digestive functions, and cheer the spirits. Yet the Bitters is the safest of all stimulants. Let the miner who is exposed to hot and dry, wet and cold, be certain to obtain a supply of the genuine Hostetter Bitter, and he will find it a certain safeguard to health.

HOPE FOR THE AFFLICTED.—In another part of this paper will be found the advertisement of the celebrated Institute established by Dr. J. C. YOUNG, in 1850. In this age of deceit it is important that the afflicted and suffering to point out to them where they are sure of obtaining the wished for relief and cure. Under the care of the skillful Doctor the sick and troubled can divest themselves of their burdens of pain; lay aside their cross, and secure health and happiness. If you are sick or in trouble, do not hesitate. Read the advertisement and follow the advice. Do not forget the number or the manner of directing your letters. Consultation Office, 540, Washington street, San Francisco. Dec-3m

AT LEAST two-thirds of the diseases with which the human family are afflicted, are brought on by the want of attention to the condition of the Blood. Whenever the blood becomes impure, no matter from what cause, the effect of that impurity is communicated, either in one way or another; and unless measures are at once taken to remove such impurities, the whole system becomes affected, and a long fit of sickness and sometimes death is the result. Dr. Samuel Adams, a well-known Chemist of San Francisco, has discovered certain herbs and roots, mostly of California growth, which he has combined with Sarsaparilla and Iodide of Potas, and succeeded in producing a Medicine that, while it is entirely harmless in every particular, will in short time completely eradicate from the Blood all impurities of whatever nature, and will restore the patient to perfect ROBUST HEALTH. The preparation is called "ADAMS' BLOOD PURIFIER," and is for sale at wholesale at the United States Drug Store, corner of Bush and Powell streets, San Francisco, and by Dr. D. W. Strong, Dutch Flat. 40

SPECIAL MEDICAL NOTICE.—DR. CHAS. H. TOZER would most respectfully inform the sick and afflicted that his MEDICAL INSTITUTE is at the same place, corner of Kearny and Jackson streets, San Francisco, where he has been established for many years, for the cure of special complaints. Having relinquished the old modes of advertising, which has become so common with all the Quack Doctors of San Francisco, filling up the newspapers with false references, for the purpose of imposing upon strangers. I think it is only necessary to inform those in need of a Physician of long experience and successful practice that I can be consulted at all business hours, at my Medical Institute, corner of Kearny and Jackson streets, San Francisco.

LADIES suffering from the Whites, Piles, Weakness of the Back, Pain in the Side, Headache, Palpitation of the Heart, Derangement of their Monthly Sickness, and all other diseases that the Female System is subject to, will find prompt relief by applying to DR. TOZER.

My Female Monthly Pills were never known to fail in giving relief in those cases for which they are recommended. To be obtained only at my office. Price $5.00 with full directions. Consultation Free.

Address CHAS. H. TOZER, M. D., San Francisco, Cal., or Lock Box, 1881. Consultation Free. All communications strictly confidential.
CHAS. H. TOZER, M. D.,
Late consulting Physician of Locke Hospital, London.

A NEW OLD SCHOOL DOCTOR.—DR. MAGGIEL is the founder of a new medical system. The quantitarians, whose vast internal doses enfeeble the stomach and paralyze the bowels, must give precedence to the man who restores health and appetite, with from one to two of his extraordinary Pills, and cures the most virulent sores with a box of so of his wonderful and all-healing Salve. These are the two great specifics of the Doctor are fast superseding all the nostrums of the day. Extraordinary cures by Maggiel's Pills and Salve have opened the eyes of the public to the inefficiency of the (so called) remedies of others, and upon which people have so long blindly depended. Maggiel's Pills are not of the class that are swallowed by the dozen, and of which every box full taken creates an absolute necessity for another. One or two of Maggiel's Pills suffices to place the bowels in perfect order, tone the stomach, create an appetite, and render the spirits light and buoyant! There is no griping, and no reaction in the form of constipation. If the liver is affected, its functions are restored; and if the nervous system is feeble, it is invigorated. This last quality makes the medicines very desirable for the wants of delicate females. Ulcerous and eruptive diseases are literally extinguished by the disenfectant power of Maggiel's Salve. In fact, it is here announced that MAGGIEL'S BILIOUS, DYSPEPTIC AND DIARRHEA PILLS cure where all others fail. Which for Burns, Scalds, Chilblains, Cuts, and all abrasions of the skin MAGGILL'S SALVE is infallible. Sold by J. Maggiel, 43 Fulton street, New York, and all Druggists, at 25 cts. per box.

MEDICAL ADVICE.—DR. WM. K. DOHERTY's Medical and Surgical Institute is becoming a sine qua non to the welfare of our State and health of our citizens; and its rapidly spreading reputation, although it may excite surprise, is but the signal of skill, and follows as the natural result of such a cause. We are personally acquainted with gentlemen who had suffered for years under chronic diseases and who had taken the advantage of every available means that promised relief, but without success, until they called upon Dr. Doherty, who cured them in a short space of time, has given a guarantee [illegible] gratifying to all [illegible] seeks, not by defamation of others, to establish his reputation or ruin of another's fame. The Doctor conducts his own Institute in such a manner must be satisfying to all his patients. He examines, advises and prescribes without charge, and the patient, after hearing his terms for treatment, can accept or reject as he pleases. In no case does the Doctor ask a fee until he has effected the cure. This he is able to do, because he feels the confidence which long experience has given, and no doubt the consolation which appertains to that confidence. Persons afflicted with either acute or chronic diseases would do well to consult the Doctor at once. The charges are moderate, as for consultation he asks no fee; nor does he insist on obedience to his advice unless the patient places himself under his care. His offices are on Sacramento street, opposite the Pacific Mail Steamship office.—*News*.

THORNTON, the great English Astrologist, Clairvoyant and Psychometrician, who has astonished the scientific classes of the Old World, has now located herself at Hudson, N. Y. Madame Thornton possesses such wonderful powers of second sight, as to enable her to impart knowledge of the greatest importance to the single or married of either sex. While in a state of trance, she delineates the very features of the person you are to marry, and by the aid of an instrument of intense power, known as the Psychomotrope, guarantees to produce a life-like picture of the future husband or wife of the applicant, together with date of marriage, position in life, leading traits of character, &c. This is no humbug, as thousands of testimonials can assert. She will send, when desired, a certified certificate, or written guarantee, that the picture is what it purports to be. By enclosing a small lock of hair, and stating place of birth, age, disposition and complexion, and enclosing fifty cents and stamped envelope addressed to yourself, you will receive the picture and desired information by return mail. RHEUMATISM.

Throughout this Coast a great deal of suffering is experienced from Rheumatism. Weeks and even months of protracted and aggravated misery is endured by the victims of medical insufficiency and ignorance, which could be cured just as speedily as was Mr. SPARROW, whose testimony is given below, and is only the echo of hundreds of other cases. Dr. Bourne cures without medicines, which accounts for his extraordinary success.—No. 10 Masonic Temple, Post street entrance.

SAN FRANCISCO, September 6, 1861.

Dr. BOURNE:—Last winter I was nearly dead, by an attack of inflammatory rheumatism. I suffered the most excruciating pains for about five weeks, without any hope of relief, when a friend hearing of my illness, called to see me and assured me that if I would stop drugging and doing, and go to you, that you would have me walking about the streets in three days. Sure enough, although I was utterly helpless, and conveyed to your house in a carriage, lifted into the bath, yet, on coming out of it, I merely assisted myself, doing much towards dressing, and without assistance, walked from the bath to the carriage. On the fourth day, I discharged my carriage and walked, with a friend's aid, the entire distance to your house (nearly a mile) and home again, and so on until cured. I felt myself a well man. And now I am happy to do you this little service of publicly certifying to the simple truth, leaving it to do its work among my friends and acquaintances as may chance to see this.
Your friend,
JOSEPH SPARROW.

CONSUMPTION.

An Interesting Letter.

Very few persons, even among physicians, would have been willing upon any terms to have been in the condition of the writer of the following letter on the 14th of February last. I will anticipate somewhat his report of the facts by saying that on the 15th of August last he made me a visit, "the very picture of health." Time, which tries and proves all things, has sufficiently tested this case, and shown that neither relapse nor collapse have followed; the cure is perfect; and can be cited among the scores of similar cases the result of my improved mode of treating disease without medicine.
G. M. BOURNE,
Water Cure Physician,
No. 10 Masonic Temple, Post street

SACRAMENTO, April 30, 1865.

DR. G. M. BOURNE—Dear Sir:—It is with pleasure and satisfaction that I now let you know of my good health. Looking back upon what I have passed through, it seems as if I had been lifted from the grave, and I think it my duty to acknowledge to you and the world the benefit I derived from water treatment as administered by you in your celebrated baths. It was in August, 1864, when disease developed itself with a severe cough. I then took medicines, getting worse with chills, fevers, loss of strength, and was pronounced consumptive. This set me to thinking, and finally I determined to leave my business and go to the Sandwich Islands, having been informed that I could not be cured here. I went to San Francisco, and while waiting for a ship called upon Dr. Bourne, who stated that a trip to the Islands would probably result disastrously, was wholly unnecessary, and I could be speedily cured at his establishment. I placed myself under his treatment, and in one week was so improved I thought I could risk returning home and doing my duty as Engineer on the Central Pacific Railroad. The Doctor objected, but I thought I knew better, and returned to duty. In about two weeks my cough returned, and I kept getting worse, and contrary to Dr. Bourne's injunction never to take medicine again, committed that folly, and soon was so completely run down that I could scarcely walk; so, as a last resort, I concluded once more to try the Water Cure. I went to San Francisco—few of my friends expecting me to return; in fact, I thought my return doubtful. On arriving at Dr. Bourne's establishment (February 14, 1865,) I was not able to get to the bath without assistance, but in a few days I began to recover myself again. I remained with him only six weeks, when I felt a wiser and better man, without the aid of medicine. I have now been at work several weeks, and find that I am gaining every day, and at present bid fair to be stouter than ever before. Persons visiting the Doctor's establishment find it just what it should be, both in the Ladies' and Gentlemens' Departments, and I cannot say too much in praise of the Doctor's kind attentions to his patients.

This letter I write for the benefit of all the afflicted, to be used as the Doctor desires, and should it be the means of directing any to his care and treatment who (as they assuredly will) find relief, I will be paid for my trouble.
JAMES CAMPBELL,
Engineer Central Pacific Railroad.

SAN FRANCISCO, August 22, 1865.

Advised of the undersigned, Mr. James Campbell, of the Central Pacific Railroad, (who was then in a most deplorable state of ill health,) placed himself under the care of Dr. Bourne, the Water Cure Physician. Some six months afterward he visited the city, when I accidentally met him at Dr. Bourne's establishment, and am happy to say, restored to the enjoyment of good health, and in fine spirits. JOHN SULLIVAN.

☞ Dr. Bourne treats all diseases of the throat, chest and lungs—which includes diptheria, bronchitis, incipient consumption, pleurisy, croup, etc.—with greatest success. Great relief is afforded in advanced stages of consumption. Rheumatism, paralysis, neuralgia, fever and ague, dropsy, etc., are also cured quickly, pleasantly and economically. No medicine whatever.

Confirmation Strong of an Interesting Letter.

SACRAMENTO, November 23, 1865.

DEAR DOCTOR:—I received your letter a few days since asking for my photograph, which I will attend to as soon as convenient. At present I am very busy, an account of the stormy weather, being out at all times, both night and day. I am enjoying very good health, apprehending no danger, if properly careful, as every one should be. I have read my letter in the "Call" and other papers, and have been asked several times concerning it, and whether it is correct, and I say, I can vouch for its contents, and more if required, and so can a great many others who knew me at the time.
I remain your friend,
JAMES CAMPBELL.
To DR. BOURNE, San Francisco.

Dr. Bourne takes the liberty to publish the above as many persons had prophesied his relapse into his former condition on returning to his duties, of the writer of "An Interesting Letter," whose statements concerning the cure of a well defined case of consumption have recently attracted so much attention to the Water Cure, as improved upon and practiced by Dr. Bourne. This additional testimony must prove satisfactory to all reasonable minds. It should be remembered that Dr. Bourne uses no medicines whatever, and that his patients almost universally are those who failed to receive relief from the medical practitioners; yet they are cured with great rapidity, and in a pleasant and agreeable manner. No. 10, Masonic Temple, Post street entrance. jy1-3m

FACTS AND FANCY.

THEN AND NOW.—In the work of reconstruction, traitors must take back seats.—*Andrew Johnson, Nashville' June 9, 1866.*

As now interpreted:

In the work of reconstruction traitors must take back their seats—in Congress.

THE reply of the superintendent of one of the principal railroads in Maine to a circular from a Cabinet officer at Washington, asking him to carry delegates to the Philadelphia Convention for half fare was: "That he was not aware that there were any such fools in Maine as to attend that Convention, but if there were any, he would take them as freight."

A FRIEND once visiting an unwordly philosopher, whose mind was his kingdom, expressed surprise at the smallness of his apartment. "Why, you have not room to swing a cat!" "My friend," was the serene unappreciative reply, "I don't want to swing a cat!"

MOSQUITOES may be disposed of in this manner: Take 'em in your hand, bend their legs back from their face, like a chicken's prepared for baking, rub a brickbat over their eyes till they can't see for the dust, then turn them loose. No mosquito with a spark of self-respect will come back after this operation.

THAT was a provident and affectionate father who secured five thousand dollar policies in an accidental insurance company upon the lives of his seven small children, and sent the little darlings for a holiday excursion on a New Jersey railroad.

HISTORICAL.—Where is paper money first mentioned in the Bible? When the dove brought the green-back to Noah.—*Exchange.*

When is paper next mentioned in the Bible? When Moses made ointment for the shins of the people—and, of course, that was a shin-plaster.

ESPECIALLY.—A writer, dwelling upon the importance of small things, says, "that he always takes notes even of a straw, especially if there happens to be a sherry cobbler at one end of it."

COAXED HIM.—A boy caught a hungry dog the other day, tied him by his tail, and coaxed him out of his skin with a piece of liver. The dog was as well as could be expected under the circumstances.

DR. CHARLES H. TOZER'S PRIVATE MEDICAL INSTITUTE,

Northeast Corner of Kearny and Jackson Streets, SAN FRANCISCO.

The Great Eradicator of Special complaints, formerly of Locks Hospital, London, Eight Years in Sacramento, and the last Four Years in San Francisco.

DR. TOZER'S

Experience is of forty year's standing, and during that time he has met with unparalleled success in the treatment of all those diseases generally known as Venereal or Chronic.

It is impossible here to mention all the diseases with which he is familiar; some, perhaps, will not be out of place. The most formidable, the most destructive to mankind is Self-Abuse. The brain being the seat of the disease, the whole system suffers in consequence. I will here enumerate some of the symptoms, so that those afflicted may be able to form an opinion in regard to their complaints and seek advice in time, thereby saving themselves a world of suffering: Nervous Debility, Loss of Memory, Pain in the Limbs and Back, Palpitation of the Heart, Trembling of the limbs, Headache and an aversion to general society, especially that of females. There are a great many more, but these are sufficient, and should you be suffering from any of them, call on DR. TOZER, and he will cure you in a short time, without any interruption to your business—or state your case by letter, and there will be no occasion for your calling at the office.

Stricture of the Urethra

Is another formidable enemy to health. Send for one of my circulars on that disease, and inform yourself of its terrible results. The worst cases cured in a few days.

Venereal Diseases,

In all their various forms, either Primary, Secondary or Hereditary, completely eradicated from the system.—Your constitution being restored to perfect health, there will be no danger of handing down to your children that terrible disease known as Scrofula.

Syphilitic Disease,

As it presents itself on this coast, is of a more formidable character than that seen in the Atlantic States or Europe, arising from the fact of its being a compound of Spanish, Chinese and Sandwich Island disease. Those of you who have visited the two countries no doubt have seen the dreadful effects of it on the native and foreign population. It requires altogether different modes of treatment.

The Old Formulas

Of Ricord, Acton and Bostwick, are of little account, except to dry up the disease on the surface, leaving the poison in the blood, which, sooner or later, will show itself as a secondary disease in an aggravated form.—These facts I have learned by experience, and think I can say without boasting, that I have seen more practice in these diseases than any other physician in San Francisco, dating, as it does, from 1849. It becomes you, therefore, to think well before you employ a physician. Who is the proper one to consult? An old experienced one, or one who has recently settled among you?

My plan is purely vegetable, destroying the disease and purifying the blood so that there is no danger of secondary symptoms.

Rheumatism, Neuralgia,

And diseases arising from the use of Mercury, such as pains in the skin bones, swellings of the different joints of the body, running sores, etc., and impurities of the blood, cured in a short time by the use of my VEGETABLE MIXTURES, known only to myself.

Seminal Weakness.

Should you be afflicted with any of the following symptoms, such as weakness of the Back and Limbs, Pain in the Head, Dimness of Vision, Nervousness and General Debility, Loss of Memory, Confusion of Ideas, and Depression of Spirits, Evil Foreboding, Self-distrust, and an aversion to society, consult DR. TOZER at once, and he will restore you to perfect health.

To Females.

When you are afflicted with Weakness of the Back and Limbs, Head, Loss of Muscular Power, Palpitation of the Heart, Irritability, Nervousness, Extreme Urinary Difficulties, Derangement of the Monthly Sickness, Sterility, and other diseases peculiar to females, consult DR. TOZER, and you will receive particular attention. Let no false delicacy prevent you, but apply at once, and save yourself from painful suffering and premature death.

My rooms are so arranged that there is no danger of exposure, and of meeting any one save the Doctor.

My FEMALE MONTHLY PILLS were never known to fail in giving relief in those cases for which they are recommended. To be obtained only at my office.

Price, FIVE DOLLARS—with full directions on each Box. Sent by Mail or Express.

To Correspondents.

Patients of either sex, residing in any part of the country, however distant, who may desire the opinion and advice of DR. TOZER, can, by submitting a written statement of their case to the Doctor, receive all the attention and medicines necessary to affect a cure without the necessity of a personal interview.

All letters strictly confidential, opened and replied to by the Doctor himself.

Consultation at the office or by letter, FREE.

A Grateful Acknowledgement to Skillful Gentlemen.

SAN FRANCISCO, June 1, 1866.

Dr. Chas. H. Tozer:—Dear Sir: You will excuse me for not writing to you sooner. You will please remember me as the individual who called on you for assistance about a year ago. The roof of my mouth had completely rotted out, and my palate dropped down and there remained, stopping up the passage so that I could hardly eat. You remember you cut it out at once, which relieved me immediately, and I was enabled to swallow my food, and in a short time began to improve. I took your medicine, and followed your directions for several months You finally succeeded in stopping the disease, saving my my nose and upper lip, though you frequently cautioned me about losing it. I continued to improve until you finally recommended me to go into the country, and before going, by your advice, I had a cast taken of my mouth, in order that I could have a plate made for me to enable me to speak so as to be understood, and am now using it. My eternal thanks are due to you and DR. DEMAREST* for the perseverance and skill that you displayed in my case; and I have to thank you for my restored health, and even my life, as I was very near bleeding to death several times from the nose. I am now in Sacramento City, enjoying good health, and I shall recommend all my friends to call on you should they be so unfortunate as to require assistance; and I would advise all persons to avoid certain scientific doctors in your city, for they will send them to a land from whence no traveler returns.

With my best wishes for the success of both of you, I remain, yours, etc., S. S. T.

DR. MAGGIEL'S PILLS AND SALVE!

These Life-giving remedies are now given to the world. For over a quarter of a century of private practice the ingredients in these

LIFE-GIVING PILLS!

Have been used with the greatest success. Their mission is not only to prevent disease, but to cure. They search out the various maladies by which the patient is suffering, and re-invigorate the failing system. To the aged and infirm a few doses of these valuable PILLS will prove to be

A VERY FOUNTAIN OF YOUTH,

For in every case they add new life and vitality, and restore the waning energies to their pristine state. To the young and middle-aged, they will prove most invaluable, as a ready, specific, and startling medicine. Here is a dream realized, that Ponce-de-Leon sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to vigor and make youth ever

AN ETERNAL SPRING!

It was left for this day and hour to realize the dream, and show in one glorious fact, the magic that made it fair.

These Famous Remedies!

Cannot stay the flight of years, but they can force back and hold aloof, diseases that might triumph over the aged and the young. Let none hesitate then, but seize the favorable opportunity that offers. When taken as prescribed—

FOR BILLIOUS DISORDERS

Nothing can be more productive of cure than these Pills. Their almost magic influence is felt at once; and the usual concomitants of this most distressing disease are removed, These remedies are made from the purest

Vegetable Compounds.

They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngest babe.

FOR CUTANEOUS DISORDERS

And all eruptions of the skin, the SALVE is most invaluable. It does not heal internally alone, but penetrates with the most searching effects to the very root of the evil.

THE GREAT REBELLION!

Much anxiety has been manifested by the Reading Public during the past few months to see the completion of this History, which was commenced at the breaking out of the Rebellion, by the

HONORABLE J. T. HEADLY,

America's most popular author. The Publishers now beg leave to announce to the public, that the Work is completed and ready for delivery; finished in the finest style of the book-making art; containing 1208 closely printed royal octavo pages on fine paper—embellished with seventy-four splendid STEEL PLATE engravings of all the leading Generals and Public Men NORTH and SOUTH, and Spirited Scenes of Naval and Land Engagements which bring the reader face to face with the very conflict In the preparation of this work the author has traced the footsteps of the Rebellion, not only in the field, but in the councils of political and diplomatic bodies, following closely each day's proceedings NORTH and SOUTH, giving every

Order, Proclamation, Battle and Event,

In the order in which they occur, with an impartial review of everything of interest making it a Complete History of the Rebellion.

Mr. Headly's "Sacred Mountains;" "Washington and his Generals;" "Napoleon and his Marshals" which have given him such fame as a writer, are but a prelude to the copious and fascinating descriptions portrayed in this his greatest work—which instead of grating on the reader's ear with the cries of death, leads him gracefully to the sublime achievements of heroism until it reaches a plane of contemplation that is imposing.

This work is for sale by subscription. AGENTS WANTED TO CANVASS FOR IT IN EVERY COUNTY AND TOWN ON THE PACIFIC COAST.

THIS CELEBRATED INSTITUTE

has enjoyed on this coast an uninterrupted success of fourteen years, and has become one of the renowned Hospitals of the age. What the celebrated Lock Hospital is to London, and the no less renowned establishment of Ricord is to Paris, this Institute has become to the Pacific coast. The thousands annually received and cured place it it in point of number of patients among the very first of the world, and the success of its treatment ranks it second to none.

PRIVATE DISEASES IN MALE and IRREGULARITIES IN FEMALES are the great destroyers of health They insidiously attack the system and gradually undermine and destroy it; they drive the bloom from the cheek, the lustre from the eye, the strength from the frame; they give to the world puny and diseased offspring, and poison, through successive generations the race of man. The marks can be seen in Scrofula, Consumption, Cripples, the Idiotic, the Paralytic, the Insane, etc.

There is no more terrible scourge to the human race than those diseases arising from the contamination of Venerial Poison. The mildest forms, by retreating to the blood, hold over the afflicted one, the destruction that is liable at any moment to fall and blight—to utterly destroy—all earthly hopes.

MERCURY, recognized as the most fatal medical enemy to man, combining with the Venereal, doubles in dangers. Those who have been treated with that pernicious mineral poison are not cured; the disease has only assumed a new form.

Do not be Satisfied with Partial Cures

that leave the poison to crawl through the system, eating its way into the tissues and organs beneath the apparently smooth surface, to burst out in the future with a virulence that will baffle the effects of medicine. WHEN PERFECT CURES can be obtained by consulting a physician whom long practice and thorough investigation into the causes of DISEASES of the URINARY ORGANS enables to determine at once the nature of the disease.

In all cases entrusted to the Doctor's care, PERFECT SPEEDY and PERMANENT,

Cures are always Guaranteed.

In syphilis and its adjuncts; Gonnorhœa and its accompanying diseases; and all diseases of the Bladder, Kidneys, and prostrate; Seminal Weakness; Diseases of the Heart and Lungs; Dyspepsia; Indigestion, Impotency; Incipient consumption, and all diseases of the urinary organs, in either sex, cure always warranted, NO PAY REQUIRED, at the

SEMINAL WEAKNESS OR SPERMATORRHOEA.

The young man who experiences that growing weakness in his muscular and mental organization should stop to consider whence it arises. He will find in the weakness of the back, trembling of the limbs, disordered digestion unaccountable failing of the powers of the mind, distaste for society, dread of impending trouble, forebodings of evil, sleeplessness, troubled and lascivious dreams, accompanied by growing deafness, loss of muscular power, and numerous other symptoms of disorganization, the positive traces of that most terrible and destructive of all diseases Seminal Weakness—wasting away his powers, destroying his hope of life and manhood, and dragging him along the broken path of his existence towards a premature and loathsome grave. To him who finds his life dribbling out in the discharge of the vital principle of existence in nocturnal and diurnal emissions, the mere cessation of its appearance brings no assurance of relief.

Marriage, that holy office, the safeguard and hope of manhood, brings to such an one no hope of cure, but adds to his misery in the knowledge that the one who looks to him for so much of her happiness, is a victim to his evil, and an innocent companion of his punishment He adds to his misery and disorder until hope leaves him. There is no rescue except in proper and skillful treatment. Consult then, at once, a physician whom long practice and careful research has made thoroughly conversant with every phase of the disease. Those who have become the victims of solitary vices, that dreadful, fascinating and destructive habit, which fills thousands of sick-rooms with paralytics and consumptives, and hundreds of untimely graves with its misguided victims, should consult, without a moment's delay, one who will sympathize with their sufferings. To such the Doctor would especially address himself, giving to each and all assurance of a PERFECT and PERMANENT CURE, without hindrance to business, change of diet, or fear of exposure.

Do not forget the address. See below.

Important to Females.

When a female is in trouble or afflicted with disease and requires medical or surgical assistance, the enquiry should be, Where is there a physician who is fully competent to administer relief, and whose respectable standing in society recommends him to the confidence of the community? The Doctor understanding how imperatively necessary these requirements are, feels called upon to interpose, and by the attention of the afflicted to the fact that he has been a Professor of Obstetrics and Female Diseases for twenty years, and is fully qualified to administer in all cases, both medically and surgically, not in a superficial manner, but in as thorough a manner as years of study and practice—both in hospitals and private families—can make, to save them from the hands of the unqualified, unscrupulous and designing. Therefore families can rely upon him as upon a father. All in affliction can find in him one who will feel and sympathize with and befriend them in trouble—one in whose secrecy the utmost confidence can be placed. Consultation by letter or otherwise, FREE. See address below.

THE CELEBRATED FEMALE REMEDIES, compounded from the private prescription of Dr. Young, have now obtained a most extended popularity, and are correctly viewed to be the safest and surest remedies for the complaints for which they are applied. AMERICAN INSTITUTE

NEW YORK, 1865.

To the FLORENCE SEWING MACHINE CO. for the Best Family Sewing Machine,

HIGHEST PREMIUM! GOLD MEDAL!

REASONS:

1st.—Its simplicity and great range of work.
2d.—The Reversible Feed Motion.
3d.—The perfect finish and substantial manner in which the Machine is made
4th.—The rapidity of its working and the quality of the work done.
5th.—The self-adjusting Tension.

The Florence was awarded the first and highest premium at the State Fair of California, the only Fair on the Pacific coast at which any two doubld thread Sewing Machines were exhibited in competition in 1865.

The Florence received the only premium awarded, by the Mechanic's Institute of San Francisco, in 1864 and 1865, to any Sewing Machine, Sewing Machine Co., or Agent. The claim of a competitor to a medal is without any foundation whatever.

Wherever the Florence has been brought in competition with other Sewing Machines, it has always been declared the best. It is the most simple, the most substantial, the most efficent, and its use is easily learned. Every Machine sold is guaranteed in the full sense of the word.

PRIVATE MEDICAL AID.

QUICK CURES AND MODERATE CHARGES

DR. W. K. DOHERTY'S

Private Medical and Surgical Institute,

Sacramento Street, below Montgomery, opposite the Pacific Mail Steamship Company's Office. Private entrance on Leidesdorff street, San Francisco

Established expressly to afford the afflicted sound and Scientific Medical Aid, in the treatment and cure of all Private and Chronic Diseases, cases of secrecy and all Sexual Diseases.

TO THE AFFLICTED.

DR. W. K. DOHERTY returns his sincere thanks to his numerous patients for their patronage, and would take this opportunity to remind them that he continues to consult at his Institute for the cure of chronic diseases of the Lungs, Liver, Kidneys, Digestive and Genito-Urinary Organs, and all private diseases, viz: Syphilis in all its forms and stages, Seminal Weakness, and all the horrid consequences of self-abuse, Gonorrhœa, Gleet, Strictures, Nocturnal and Diurnal emissions, Sexual Disability, Diseases of the Back and Loins, Inflammation of the Bladder and Kidneys, etc., etc., and he hopes that his long experience and successful practice will continue to insure him a share of public patronage. By the practice of many years in Europe and the United States, he is enabled to apply the most efficient and successful remedies against diseases of all kinds. He uses no mercury, charges moderate, treats his patients in a correct and honorable way, and has references from men of known respectability and high standing in society. All parties consulting him by letter or otherwise, will receive the best and gentlest treatment, and implicit secrecy.

DR. DOHERTY would call attention to the following certificates from two of his patients, who, having fully recovered their health, desire to make known their remedial agent. It will be seen their statements are fully authenticated by a Notary Public.

The welfare of society imperiously demand their publicity, and they are given more to warn the unwary than to sound the praise of a Physician, of whom hundreds of like cases can be cited during a practice of more than fifteen years.

DR. DOHERTY—Dear Sir: I feel my health so fully restored, that in common gratitude, I believe I should make you some some written acknowledgement for your valuable services—particularly as your fee was small for the work performed.

I arrived in this city from the East about one year ago, and was then suffering from an old case of Gleet, complicated with Stricture. Being a stranger in this city, and believing those Doctors who gave such positive assurances of success were necessarily the best, (some of whom have a large number of titles,) I placed myself in their charge and continued under their treatment until I had lost nearly all hope and a considerable sum of money.

I wish to say now that you are the sixth Doctor I have employed, and the only one that has ever done me any service. My Gleet is wholly cured, the Stricture is all removed, and my general health is beter than it has been for years.

In conclusion, I would say to the many unfortunates who require medical advice, if you have any doubt as to whom you may employ, ask Dr. Doherty for my address and call and see me. (I keep store in this city.) My experience may save you many dollars.

I would also add that in the early stage of my disease I used a large amount of the preparations advertised as an infallible cure for Gonorrhœ, Gleet, etc., but never derived any benefit from them.

I am, Doctor, very truly yours, I.— H—.

San Francisco, June 16, 1864.

Subscribed and sworn to before me, this 21st day of June, A. D. 1864.

Seminal Weakness—A Sworn-to Certificate of a most Remarkable Cure of Spermatorrhœa.

A desire to benefit humanity, and a feeling of gratitude to Dr. W. K. Doherty, alone induces me to make this statement. For many years I have been afflicted with that fearful disease known as "Spermatorrhœa," or Seminal Weakness, the result of self-abuse; but till 1855 experienced but little trouble or inconvenience. In that year however, I had Seminal Weakness to an alarming extent, which was soon followed by the most alarming symptons as weakness of the back and limbs, pain in the head, dimness of vision, nervousness and general debility. My mind, too, was afflicted to such an extent as to seriously impair my memory; my ideas were confused and spirits depressed. I was averse to society, had evil forebodings and self-distrust, and was entirely unfitted for any of tha duties of life. From 1855 to the summer of 1863, I employed the very best medical talent I could find, and spent several hundred dollars, but in no instance obtained more than temporary relief. I had about concluded there was no relief for me in this world, but seeing Dr. Doherty's advertisement, I thought I would call and see him, as he charged nothing for consultation. I had an interview with Dr. Doherty at his office, in Sacramento street, and his fee for treatment was so reasonable, I determind to try him, though I did not expect much benefit from his treatment. On the 5th of December last I placed myself under his care; in one week I found myself very much improved, and, now, after five weeks' treatment, I feel myself thoroughly cured of all my troubles and in the enjoyment of the best health. Hoping that my experience may be of benefit to others similarly afflicted, I subscribe myself

JAMES JOHNSTON.

Subscribed and sworn to before me, this 15th day of January, A. D. 1864.

[L. S.] A. G. RANDALL, Notary Public.

To Females.

When a female is in trouble, or afflicted with disease as weakness of the back and limbs, pain in the head, dimness of sight, loss of muscular power, palpitation of the heart, irritability, nervousness, extreme urinary difficulties, derangement of digestive functions, general debility, vaginitis, all diseases of the womb, hysteria, sterility, and all other diseases peculiar to females, they should go or write at once to the celebrated female doctor, W. K. Doherty, at his Medical Institute, and consult him about their troubles and disease. The Doctor is effecting more cures than any other physician in the State of California. Let no false delicacy prevent you, but apply immediately and save yourself from painful sufferings and premature death. All Married Ladies whose delicate health or other circumstances prevent an increase in their families should write or call at Dr. W. K. Doherty's Medical Institute, and they will receive every possible relief and help. The Doctor's offices are so arranged that he can be consulted without fear of observation.

To Correspondents.

Patients residing in any part of the State, however distant, who may desire the opinion and advice of Dr. Doherty on their respective cases, and who think proper to submit a written statement of such, in preference to holding a personal interview, are respectfully assured that their communications will be held most sacred. Dr. Doherty takes this opportunity of observing, that all letters are only opened and replied to by himself, and the latter as promptly as possible.

If the case be fully and candidly described, personal communication will be superseded, as instructions for diet, regimen, and the general treatment of the case (including the remedies), will be forwarded without delay, and in such a manner as to convey no purport of the letter or parcel so transmitted.
